PROGRAMS:

Infant Development Program: Provides home-based services for children from birth to three years of age who have been identified as developmentally delayed, or at risk for delay.

Building Blocks Program: Building Blocks is a family centred, strength based program which supports children and parents to reach their fullest potential through participation in a childcare setting, parent education classes, and in activities chosen by the family; e.g.: upgrading, family counselling, substance abuse counselling, aboriginal culture.

Supported Childcare Program: Supporting children with special needs to fully integrate into a community program. The program ensures full inclusion and participation for the child.

Young Parent Program : A program designed to provide health education, counselling and support services to pregnant and/or parenting young families or teens.

Physiotherapy and Occupational Therapy; assessment and treatment services for infants, preschoolers and school aged children.

Speech-Language Pathology; assessment and treatment services are available for infants and preschoolers.

Family Education Program: Parenting education to families of preschool children with special needs through individual and group session.

Lifeskills: A goal based Lifeskill program for MCFD clients who are Child and Youth with Special Needs (CYSN).

Respite Program: In-home and out-of-home respite services for families of MCFD clients who are Child and Youth with Special Needs (CYSN).
