

## **PROGRAMS:**

**Infant Development Program:** Provides home-based services for children from birth to three years of age who have been identified as developmentally delayed, or at risk for delay.

**Building Blocks Program:** Building Blocks is a family centred, strength based program which supports children and parents to reach their fullest potential through participation in a childcare setting, parent education classes, and in activities chosen by the family; e.g.: upgrading, family counselling, substance abuse counselling, aboriginal culture.

**Supported Childcare Program:** Supporting children with special needs to fully integrate into a community program. The program ensures full inclusion and participation for the child.

**Adolescent Health:** A program designed to provide health education, counselling and support services to pregnant and/or parenting teens.

**Physiotherapy and Occupational Therapy;** assessment and treatment services for infants, preschoolers and school aged children.

**Speech-Language Pathology;** assessment and treatment services are available for infants and preschoolers.

**Family Education Program:** Parenting education to families of preschool children with special needs through individual and group session.

**Lifeskills:** A goal based Lifeskill program for MCFD clients who are Child and Youth with Special Needs (CYSN).

**Respite Program:** In-home and out-of-home respite services for families of MCFD clients who are Child and Youth with Special Needs (CYSN).

**Family Navigation:** Support the well being of children ages 0 - School aged and their families. Connecting families to services and early intervention programs, promoting community belonging and providing foundational knowledge to parents on raising healthy children.
